

INTELLIGENCE THAT WINS TENDERS & NAVIGATES COMPLEXITY

Master Your Documents. Own the Market.

SentiDocs (powered by ADVIT DocuGPT) isn't just a reader it's an enterprise grade intelligence workspace designed to turn dense paperwork into competitive action. Whether you are navigating massive government tenders or complex legal frameworks, SentiDocs extracts facts, validates compliance, and drafts responses in seconds.

The "Tender GPT" Edge: Our Bid-Winning Co-Pilot

Built specifically to handle the rigors of Indian government tenders (GeM) and large-scale RFPs, our specialized Tender Intelligence engine ensures you never miss a requirement.

01

Rapid Compliance Matrix:

Automatically extract and track 98.7% of compliance requirements across 15+ government portals.

02

Instant Summarization:

Get a high-level factsheet of 100+ page tenders in 30 seconds.

03

Auto-Populated Responses:

Use AI to draft narrative sections and pre-fill response templates for faster submission.

WHY TEAMS CHOOSE SENTIDOCs:

10x

FASTER PROCESSING

Dramatically reduce manual reading time

0

MANUAL REVIEW

Move straight to decision-making with AI that understands context, not just keywords.

99.2%

ACCURACY

Multi-stage validation ensures every extracted data point is verified.

The SentiDocs Comparative Feature Matrix

Unlike general AI assistants, SentiDocs is a dedicated document workspace with built-in project management and deep security.

Feature	SentiDocs Benefit
 Document Support	Handles PDF, DOCX, Images, PPT, Spreadsheets, and Audio.
 Context Memory	Remembers project-specific context and chat history for consistent drafting.
 Data Isolation	Strict per-organization data siloing; your data is never used to train global models.
 Usage Analytics	Track tokens and costs precisely per project or department.
 Role-Based Access	Built-in Admin and User levels for secure organizational collaboration.

Enterprise Integration & Security

SentiDocs fits into your existing stack, not the other way around

Omnichannel Access

Available 24/7 via Chat, Email, or API—first architecture.

Native Integration

Connects with SAP, Salesforce, SharePoint, and Microsoft 365.

Sovereign Deployment

We offer on-Premise and Local Cloud hosting to keep your data under your roof.

Audit-Ready

Every interaction is logged in a bank-grade encrypted audit trail (SOC 2 & ISO 27001 planned).

Proven Business Impact

75% Faster Contract Reviews and Submissions.

90% Reduction

In manual document workflow time.

READ. UNDERSTAND. SIGN.

AI-powered document review and DigiSign eSignatures in one seamless workflow

TRANSFORM YOUR DOCUMENT STRATEGY TODAY.
